-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 18 August 2003.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

2. Figure 1-3 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

3. Claims 1-7 are objected to because of the following informalities:

Claim 1, "a slanted light guiding part" in line 5 should be changed to --the one or more slanted light guiding parts; "a light guiding panel" in line 3 should be changed to --the light guide panel--; "its" in line 3 and 7 should be changed to what it refers.

Claim 2, there is lack of antecedent basis for "the critical angle" and "the index of refraction of each medium"; "the light guiding part" should be changed to --the one or more slanted light guiding parts-- for consistency.

Claims 3-7, "the light guiding part" should be changed to --the one or more slanted light guiding parts-- for consistency.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-5 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Cordy, Jr. [US 5,190,365].

Regarding claim 1, Cordy, Jr. discloses a light guide panel [14] having a light radiating part [upper surface 14], a light source [12], and a slanted light guiding part [23, 25] (figures 4-7, column 6 lines 1-25).

Regarding claim 2, Cordy, Jr. discloses the slope of the slanted light guiding part being below a critical angle according to an index of refraction of each medium (figures 6-7).

Regarding claim 3, Cordy, Jr. discloses the slanted light guiding part being formed of straight lines, oblique lines and curved lines (figure 7).

Regarding claim 4, Cordy, Jr. discloses the slanted light guiding part being separately from the light radiating part (air gap between- column 6 lines 4-5).

Regarding claims 5 and 7, Cordy, Jr. discloses the slanted light guiding part and the light radiating part being made from different materials (column 6 lines 8-9).

Allowable Subject Matter

6. Claim 6 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: the slanted light guiding part is provided with a recessed fitting part at one end to connect with the light radiating part.

The limitations discussed above are neither disclosed nor suggested by the prior art of record.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bao Q. Truong whose telephone number is (571) 272-2383. The examiner can normally be reached on Monday-Friday (8:00 AM - 4:00 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sandra L. O'Shea can be reached on (571) 272-2378. The fax phone
